Experience

QA Engineer - Brankas | Jul 2022 - Oct 2024

Managed all testing activity to multiple products, ensuring a seamless release process and minimizing defects, even within tight project deadlines. Gained expertise in software product management, API testing, automation, and team management. Collaborated with the automation team to review and create automation test scripts, successfully reducing testing time by over 50%.

Software Quality Assurance - Labster | Jun 2021 - Jul 2022

Tested a web-based simulation editor platform, enabling internal teams to create engaging virtual labs. Ensuring all features met product owner requirements through rigorous functional testing and comprehensive testing processes. Collaborated closely with developers to develop and maintain end-to-end test scripts using Cypress. Worked with cross-functional teams to ensure on-time delivery and seamless project execution.

Senior QA Analyst - TRAVLR | Dec 2020 - Jun 2021

Managed all QA activities to ensure product quality, providing valuable feedback to enhance seamless operations for customers. Collaborated closely with the development team to effectively address user requirements. Maintained up-to-date and effective documentation throughout the development process.

Senior QA Tester - Teknologi Digital Studio | Sep 2019 - Dec 2020

Led QA efforts for several large-scale projects, ensuring smooth operations by collaborating with cross-functional teams. As a Senior Software Tester, I was responsible for all testing activities and maintaining high-quality standards.

QA Test Analyst - Bullseye/whiteGrey | Jun 2019 - Sept 2019

As a QA Analyst, ensured seamless operations by collaborating with internal teams and executing full-cycle testing processes to meet tight project deadlines. Worked with cross-functional teams to identify potential risks and implement testing strategies that improved product quality.

Product Support & QA Analyst - DGIT System | Apr 2016 - Sept 2019

Entered the Quality Assurance field as a Junior QA, responsible for manual testing, API testing, and production support. Contributed to the successful delivery of various product version while supporting customer needs, which provided a deep understanding of client requirements and software functionality.

HRIS System Admin - PT. Inti Dufree Promosindo | Mar 2015 - Apr 2016

Tried a different role by managing the implementation and maintenance of the HRIS in the HR department. Focused on ensuring that the system was properly integrated and that the database was accurately maintained. Produced detailed reports to support HR operations and facilitate decision-making.

System Implementer & QA - Dimata IT Solution | Nov 2013 - Feb 2015

Began my career as an intern, gaining hands-on experience in software testing and development processes. Transitioned to a full-time role, further improving my expertise in software testing and customer support.
